

STEEL-CUT

ABRASIVE DEOXIDIZER FOR STEEL

Product description

Through its specific abrasive and deoxidizing agents, this metal restoring compound removes and dissolves rust, oxidation, scratches, chalk and fading very fast and well on steel surfaces, but also on aluminium, aluminium alloy, chrome, brass and metal parts in general. It is generally applied by hand with a microfiber cloth

HOW TO USE: please apply a small quantity of compound on the polisher-pad or cloth and spread it with circular movements. Put light pressure at the beginning and if necessary increase it, paying attention not to scratch the surface. Eventually wipe the surface with a clean cloth.

Physical properties

Colour: White

Physical form: Liquid-creamy

Odour: Light and pleasant

Explosion limit: None

Flammability: Not flammable

Stability: Tested after exposure to temperatures between - 15°C e + 45°C

IMPERFECTION LEVEL (HIGH 4 > LOW 1)
